About me

Frontend Developer with over 5 years of experience in creating dynamic and scalable user interfaces using React.Js. Passionate about developing innovative solutions that enhance user experience. Seeking to contribute my expertise to challenging projects within high-performance teams.

Education

Tecnologico de Colima   Colima, Col.
- Computer System Engineer   2014 - 2019

ACADEMLO
- Web development academy   Querétaro, Mexico
- Programing student web full stack   October 2021 – May 2021

Experience

MetLife Mexico   (Remote)
Frontend Developer React.   November 2022– June 2024
- Added 5 new services to the MetLife catalog, improved application stability, and modernized the interface, resulting in a significantly enhanced user experience.
- Design and develop UI components using React, TypeScript, HTML5, CSS3, Webpack and npm.
- Implement state management solutions using Context.
- Integrating APIs, collaborate with back end teams to integrate Restful APIs, and other data services into the React Front end.

TATA Consultancy Services   Guadalajara, Jalisco
Asst. Software Engineer   June 2022 – November2022
- Assisted in correcting basic defects in Java applications.
- Reviewed, reported, and implemented solutions for the identified defects using Java and Spring Boot.
- Used task management tools such as Notion and Jira, and applied agile methodologies to enhance team efficiency.
- Improved application quality and stability, and gained valuable experience in agile methodologies and project management tools.

NISSAN DAOSA Mexico   Guadalajara, Jalisco
Web Developer   January 2022 – May 2022
- Worked on a project for Nissan official website, which included the catalog, locations, and an appointment scheduler.
- Designed UI components using React, Webpack and npm.
- Integrated RESTful APIs and collaborated with back-end teams.
- Used semantic HTML, CSS3, and preprocessors like SASS.
- Improved the website's functionality and user experience by optimizing the UI and site performance.

Hidrosoluciones Colima   Colima, Colima
Web Developer   July 2019 – Ene 2020
- I worked on the development, maintenance, and updating of a website for a local client.
- My main responsibilities were to develop, maintain, and update website features and elements using HTML, CSS3, SASS, Bootstrap, WordPress, and JavaScript.
- I implemented modern and customized solutions on the landing page to ensure optimal performance and a good user experience.
- A notable example was the project for the company Hidrosoluciones Colima, where I significantly improved their online presence by developing a functional and updated website that optimized user experience and met their business needs.
